- Native CAN Bus support
- 2x RS232 interfaces
- 4x GPIO
- 12 to 36 V DC input

The CRD880-CAN is a removable vehicle cradle for the MDT880 with native CAN Bus support. It also offers 2x RS232, 4x GPIO, RJ45 Ethernet, USB OTG and a 12 to 36 V DC input range.

It is designed for fleet telematics, diagnostics and vehicle-system integration where CAN access is essential.

Compatible with: Topicon MDT880
