- Vehicle cradle for MDT1080
- Screw-locking M12 Ethernet
- 2x USB-A 2.0 OTG
- 9-36 V vehicle power

The CRD1080-M12 is the vehicle cradle for the Topicon MDT1080 with a screw-locking M12 connector for Ethernet. For network cables with RJ45 the adapter cable CAB-M12-RJ45F or CAB-M12-RJ45M is required.

It also offers two USB-A 2.0 sockets (OTG) and a USB-C port for charging. A switch in the cradle selects whether charging is always on or only with the ignition on.

The cradle cable at the bottom connects the cradle to the vehicle power (9 to 36 V, ignition). With the cable set CAB-865-2RS232 + CAB-EX-RS232 + CAB-BMW-BASIC + CAB-EX-BASIC two serial ports (RS232 plus RS232 or RS485) and 4x GPIO are available, with the basic cable set CAB-1065-BASIC + CAB-BMW-BASIC + CAB-EX-BASIC 1x RS232. The cable set is not included.

Compatible with: Topicon MDT1080
