- 4x camera inputs
- 4x camera triggers
- RJ45 Ethernet
- USB-A and USB-C

The CRD1080-CAM-FULL is the full-feature vehicle cradle for the Topicon MDT1080 with four camera inputs and four camera triggers. It accepts analog cameras or AHD cameras with 720p or 1080p; all cameras must be of the same type. For camera operation the input voltage must be between 11 and 36 V. When all four camera inputs are used, the rear camera of the tablet is not available.

The back offers an RJ45 Ethernet port, two USB-A 2.0 sockets (OTG) and a USB-C port for charging. A switch in the cradle selects whether charging is always on or only with the ignition on.

With the cable set CAB-865-2RS232 + CAB-EX-RS232 + CAB-BMW-BASIC + CAB-EX-BASIC two serial ports, 4x GPIO and 1x CAN bus are available (RS485 and CAN bus share the same wires), with the CAN cable set CAB-865-2RS232 + CAB-EX-RS232 + CAB-BMW-CAN + CAB-EX-BASIC 2x RS232, 5x GPIO and 2x CAN bus. The cable set is not included.

Compatible with: Topicon MDT1080
