- Zebra SE4107 2D imager
- 1D and 2D barcode scanning
- 1280 x 960 resolution
- Reads screens and damaged codes

The MOD-BAR-01 is an optional barcode scanner module for the MDT880. It integrates a Zebra SE4107 2D imager with 1280 x 960 resolution and supports 1D and 2D symbologies, including reading from mobile screens and damaged barcodes.

With green LED aiming and warm white illumination, it is a practical upgrade for logistics, warehousing, delivery and service workflows that require fast and reliable data capture.

Compatible with: Topicon MDT880, Topicon MDT865, Topicon MDT1065, Topicon MDT1080
